I am London based **Graphic Design Graduate** with a **Art & Design background** who enjoys Sci Fi and Martial Art films plus boxing. I enjoy designing for **various clients** from **corporate to fashion** and more, using **old & new school methods** then **modifying** them with **relative programmes** such as **Photo-shop, Illustrator, In-design**, plus more using my Mac and PC.

I am passionate about designing across the board, and often develop personal projects working on ideas for print and digital. believe design to be a visual language similar to hieroglyphs that should be easily accessible by the wider public rather than addressing a limited target group if possible.

INTERESTS

Another passion of mine is music in which I was part of a DJ group, covering a variety of roles (MC during live radio night clubs and on stage; promoter; producer; designer). Being part of such a collective at a young age stands as a good example of my creative abilities across different disciplines, my natural ease at working in a team, and certainly proved an invaluable experience for cultivating my networking skills.
